Team competitions

(World Deaf Team Tennis Championships - Dresse & Maere Tennis Cups)

| | each round robin match | each placement match | Semifinals | 3rd/4th place | Finals | max. possible points |
|--------------------------|------------------------|----------------------|------------|---------------|--------|----------------------|
| Singles 1 | 35 | 35 | 45 | 60 | 75 | 390 |

| Dead rubber (doubles) | 10 | 10 | 15 | 20 | 30 | 125 |

Notes for team competitions:

Players who play the finals only will be awarded points from the previous round.

The summary of the Team singles and Team doubles matches in the Team ranking list will be calculated with **50%** only for the Singles and Doubles ranking lists! The results after the calculation will be rounded up.

Dead rubber is a term used in sporting parlance to describe a match in a series where the series result has already been decided by earlier matches. The dead rubber match therefore has no effect on the winner and loser of the series, other than the total number of matches won and lost.

General note for all competitions:

- The ranking points will be used for the period of four years or after the decision by the ICSD Tennis Director
