All venues nominated by a club must be currently affiliated to Tennis Victoria. Only one venue may be specified for the season for each club and this venue does not have to be the club's home courts. Unless otherwise directed by Tennis Victoria, it is envisaged that all home Super Round matches shall be played on a club's nominated home courts.
- 5.2 Each team in the competition shall be given the opportunity to apply to host a Super Round at their home venue. The decision as to when and which clubs will be given the opportunity to hold a Super Round shall be decided at the absolute discretion of Tennis Victoria.
- 5.3 Three courts of the same surface shall be made available for each match, including each match played during a Super Round and will be pre-determined based upon the club's team entry form (refer Condition 5.1 above). Additional or substitute courts may be used for play if approved by the Referee.
- 5.4 Each court for each rubber of each match shall be of identical type and surface unless directed by the Referee.
- 5.5 The Referee at his or her discretion will allocate each doubles rubber and each singles rubber to one of the courts available for play as specified in the home club's original Premier League club team entry form. The Referee may approve additional courts for play if it is deemed necessary for the completion of the day's match.
- 5.6 Each team shall play each other team once. Each match will consist of one doubles rubber and two singles rubbers.
- 5.7 On match day, each team captain or team representative must record all doubles player pairings, all singles players in singles order of merit and all On-Court Coaches on the score sheet for the Referee, 15 minutes prior to the scheduled commencement of play. This playing order may only be changed if a player is substituted in accordance with the Substitution rule in Condition 20.
- 5.8 Details of proposed additional or replacement players and his or her position within the team's singles order of merit must be lodged with Tennis Victoria 48 hours prior to the match if the match is being played on a weekday and 72 hours prior to the match if the match is being played on a weekend. This player's nominated singles order of merit will be referred to Tennis Victoria who has the right to alter the additional or replacing player's nominated position in the team in accordance with the directions of Tennis Victoria. Tennis Victoria will notify the opposition team of the approved new player(s) and resultant revised singles order of merit prior to the match. No new PLCT member may be used if they have not been previously approved by Tennis Victoria.
- 5.9 Players are permitted to play in a higher singles order of merit position than the originally nominated and approved singles order of merit position; however no player is permitted to play in a lower singles order of merit position within the team's singles order of merit. Any rubber whereby a player plays in a lower singles order of merit position will be forfeited by that player, save where a substitution is made in accordance with condition 20 (see condition 20.1(f)). A team that is found to be in breach of singles order of merit, cannot win the match in either home and away (or Super-round) or finals matches, but will be awarded points for eligible rubbers won.

6. MATCH FORMAT:

- 6.1 The match will consist of:
- a. One doubles rubber, played as the best of two tie-break sets with advantage scoring and a 10-point match tie-break set at one set all.
 - b. Two singles rubbers, played as the best of two tie-break sets with advantage scoring and a 10-point match tie-break set at one set all.
 - c. The order of play for the singles and doubles rubbers will be dependent upon court availability at the host venue and as determined by Tennis Victoria prior to the match. Options for the order of rubbers will include:
 - i. All rubbers will be played at the same time unless prior arrangements have been made at the sole discretion of Tennis Victoria.
 - ii. The order of merit shall apply to the singles rubbers so that the rubbers will be played as 1 v 1 and 2 v 2.
 - iii. If the match is played on two courts the order of play will be as called at the discretion of the referee.
 - iv. If the match is played on three courts all rubbers will be played as called by the Referee.
2. The two singles players shall be different than the two players who play the doubles rubber.
 3. There are no restrictions which players from the singles order of merit play the doubles rubber.

7. TIME BETWEEN RUBBERS:

- 7.1 Once a match has commenced, play should be continuous.
- 7.2 Fifteen minutes is the maximum time allowed for a doubles or singles rubber to commence from the time a nominated court is available for play and the Referee has called the match, subject to Condition 7.3 or unless a substitute player as defined in Condition 20 is required. This condition also applies to any delay for a match in progress. No rubbers for the team match shall start until the 15 minutes has passed, allowing the team receiving the forfeit or the referee the opportunity to determine the rubber being forfeited.
- 7.3 No rubber shall be defaulted unless a nominated court is available for play and the requisite time periods as defined in Condition 7 have passed.

8. METHOD OF SCORING IN HOME AND AWAY MATCHES COMPLETED AND INCOMPLETE MATCHES

- 8.1 The winner of each completed match shall be the team that wins the greater number of completed rubbers,
- 8.2 Where, prior to match day in the opinion of Tennis Victoria or on the match day in the opinion of the Referee by reason of weather or other good and sufficient reason a match cannot be commenced, each match will be considered a draw.
- 8.3 Where, in the opinion of the Referee, by reason of weather or other good and sufficient reason a match after being commenced cannot be completed and a winning match result has not been obtained, the match will be considered a draw.

- 8.4 A team may still win a match (including finals) even if they are unable to field a full team that day and/or one or more rubbers are forfeited because of punctuality or other reasons except for breaches of singles order of merit (see Condition 5.9). Any rubber forfeited will be recorded as follows:
- a. Where the rubber has not been commenced then 6/0, 6/0 to the opposing team.
 - b. Where the rubber has been commenced then all games not played shall be forfeited to the opposing team.

Case example: *Where player A is defaulted or retires at 4/1 in the first set, the score for the rubber is recorded as 6/4, 6/0 to player B.*

- 8.5 If a team only has three players available, the team receiving the forfeit will determine whether the #2 singles or doubles rubber will be forfeited. If a team only has two players available, the doubles rubber will be forfeited and the two singles rubbers will be played. If both teams only have three players available, the #2 singles rubber will be considered a double default. If both teams only have two players available, the doubles rubber will be considered a double default.

Case example: *Player A, who plays for Team X has been called for his match and is defaulted as a no show after 15 minutes. Before any rubber is started, Team Y chooses that the doubles rubber will be forfeited by Team X. Both teams will have two minutes to resubmit their lineups.*

- 8.6 Any team that forfeits a Premier League match may be subject to a team forfeit fine as outlined in Appendix 1A.

- 8.7 At the completion of the home and away (or Super-round) matches, the top two teams will be determined to play in finals. If any teams that qualify to be in the top three have the same number of wins then the higher placed team shall be decided by the percentage of rubbers won over rubbers played, if equal on rubbers percentage, then it shall be decided on the percentage of sets won over sets played, if equal on set percentage, then it shall be decided on the percentage of games won over games played. If still equal, the team that won the match between the two teams in the home and away series shall be placed higher. If still equal, a coin toss will be held at a time and place to be determined by Tennis Victoria to determine the higher team placing. A representative of each team may be present at the coin toss if requested by the team(s) involved. For the purposes of determining this Condition, a match tiebreak set shall count as both a set and a game.

9. PREMIER LEAGUE FINAL MATCHES

- 9.1 At the completion of the home and away matches the two highest placed teams in Premier League shall compete in the finals. The teams finishing in first place and second place team shall play in the final to determine the overall winner of the Premier League competition. Premier League finals matches shall be conducted and played in accordance with the following:
- 9.2 Matches for finals shall consist of three separate rubbers that shall be played in accordance with Conditions 6.1, 6.2, 6.3, 8.5 and 9.6.
- 9.4 The winner of each completed Premier League finals match shall be the team who wins the greater number of rubbers.
- a. Tennis Victoria shall determine in its absolute discretion the date and time that the Preliminary Final and Final shall be played and will additionally determine a Reserve date and time for the Final only to be used in the event play is abandoned for any reason on the original Finals day without a result being achieved. The Reserve date shall be no later than 8 days from the originally proposed date. The date of the Reserve Final day may be announced by Tennis Victoria after play has been abandoned without a result on the first Final day.

b. If play is required to take place on the Reserve Final day, teams may alter their nominated list of players for the Team for the Final for any rubber that has not commenced play on the first Final day. A rubber which has commenced play may only be completed by the player(s) who were playing that rubber. If a player has commenced in a rubber and is unable / unavailable to complete the rubber on the Reserve day, then the opposing team will be awarded the rubber. All games and sets already played will stand. The singles order of merit will still apply to all singles rubbers that have not started.

c. If a Reserve Final day is used, Tennis Victoria may use a different venue, surface and Referee and where rubbers were chair umpired with line officials on the first Final day, Tennis Victoria may not appoint chair umpires and line officials to be used on the Reserve Final day in their absolute discretion.

d. In the event of a washout, or inclement or extreme weather or where no result has been achieved in accordance with the timeframe defined by Condition 12.1 (e) and no team has achieved a winning position, the higher placed team at the completion of the home and away (or Super) rounds, will be the winner of the match for the Final. This rule shall only apply in the case of the Final where use of the alternate Reserve Final day is still not able to achieve a result in the Final.

9.5 Each player in each team shall play in the singles order of merit as previously nominated by the club and approved by Tennis Victoria.

9.6 The Premier League Final matches will be conducted at a venue(s) determined by Tennis Victoria. Matches will be played on two or three courts as determined by Tennis Victoria's arrangement with the venue. For the Final, the order of play for the rubbers shall be determined by Tennis Victoria. For all finals matches the Referee shall allocate each rubber to be played on each court and in the case of the Preliminary Final and Final in what order in accordance with Tennis Victoria's directions and may otherwise apply the conditions contained in Contain 6.1(c) where it is deemed appropriate or any other consideration raised by the Tennis Victoria Representative on site for the match. The Referee's decision is final regarding the order of play on the day of play.

9.7 All finals matches will be played to completion.

10. RESULTS OF MATCHES

10.1 Immediately after the completion of all matches whether or not a result is determined, the Tennis Victoria approved score sheet shall be completed and signed by the Referee and the Captains of each team.

10.2 The Referee shall ensure that each result is submitted to Tennis Victoria no later than 9.00am on the Monday following the completion of the match.

10.3 In the event of a match not being commenced or being incomplete, the score sheet shall as far as practicable be completed and must include each nominated player's name and the score (if any) of each completed or incomplete rubber and state the reasons for the match not being commenced or completed. The Referee shall still ensure that the score sheet is submitted to Tennis Victoria no later than 9.00am on the Monday following the completion of the match.

11. PLACES AND DATES FOR MATCHES

11.1 No alteration shall be made to the place, date or time of a match without the approval of Tennis Victoria prior to match day or the Referee on match day (refer schedule of fines).

11.2 Should a match not be commenced or be commenced but not completed at a place, date or time otherwise than as determined by Tennis Victoria then the team in default (if any) shall be deemed to

be defaulted unless otherwise determined by Tennis Victoria and points awarded (if any) for the match shall be determined by Tennis Victoria in its absolute discretion.

12. TIME FOR MATCHES

12.1 Matches shall be commenced and completed, unless otherwise approved by Tennis Victoria or unless delayed by inclement or extreme weather, as follows:

- a. Day matches shall commence not before 10am.
- b. Night matches shall commence not before 3pm.
- c. Where Tennis Victoria elects to play all matches at one site as a Super Round, matches for that Round may be split into different time slots for each match in Tennis Victoria's absolute discretion, in particular to make better use of court availability. The start times for each match as advertised by Tennis Victoria, shall be referred to as "the commencement times".
- d. Both day and night home and away (or Super-round) matches, (not including finals), shall continue until completed or until the Referee determines the match should be discontinued.
- e. Venues are to use lights from when natural light is unsafe for play in an effort to achieve a match result. If a match result has not been achieved at the time of a referees determination, then all outstanding match points will be shared.
- f. In order for teams to achieve a match result, the Referee may change the courts nominated for play from when conditions become unsafe for play, whether due to light or the conditions of the court as determined by the Referee.
- g. All finals matches shall commence and be played in accordance with Condition 12.1, unless play is abandoned by the Referee because of inclement weather or other good and sufficient reason (refer clause 9.4 (e)). The Referee cannot modify or shorten the match format.

12.2 For home and away (or Super-round) matches, any player of a team not in attendance within fifteen minutes of being called to play his or her rubber, subject to Condition 7, shall have his/her rubber defaulted but the remaining rubbers of the match must be played and shall be commenced as soon as practicable.

- a. The remaining rubbers other than any that are defaulted are still to be played. However, for subsequent rubbers players must still be ready to play within fifteen minutes, subject to Conditions 7, 20 and of being called to play or where Conditions 12.6 and 12.7 apply.
 - b. If a player has not been called for and defaulted from his or her rubber prior to play being abandoned for the day, for inclement weather or other reasons, that player's rubber is not a default against his or her team.
3. In a finals match, where some rubbers are lost due to punctuality, insufficient team members or a behavioural/default that offending team may still win the match overall, and will default that rubber or rubbers only.
4. Should a team wish to protest any of the events of the match day, writing "Played Under Protest" on the score sheet does not constitute a protest. This notation merely signifies that a protest is intended to be lodged. To formally lodge a protest, the steps outlined in Condition 24 must be followed.
5. Where under Conditions 12.1 and 12.2 hereof both teams are in default, Tennis Victoria shall determine the points to be awarded for the match (if any) and the fine (if any) to be imposed (refer schedule of fines).
6. For home and away (or Super-round) matches in the event that a match cannot commence or continue by reason of inclement or extreme weather, the Referee shall declare a draw where there has been one hundred and twenty continuous minutes after the official commencement time of the

match without play, or from the time that play was interrupted. All players must attend at the venue subject to the time provisions as defined in Condition 12.2 unless the Referee shall have declared a draw prior to the requisite time period having been reached.

However the Referee shall have the power to abandon play earlier than this if, in his or her opinion, the courts will not become playable within the one hundred and twenty minute period and there are no other courts available to transfer to. This power is only to be used as a last resort and where all reasonable efforts would be unlikely to make the courts playable. It is recommended that play not be abandoned prior to the expiration of at least ninety minutes after any delay has commenced. Any rubber completed or defaulted prior to any rain delay shall remain as completed. No player may be defaulted for punctuality reasons where the courts are unfit for play in the determination of the Referee.

Case Example: During a match there are 3 rain delays. The 1st delay is for 75 minutes, the 2nd is for 50 minutes and the final delay is for 120 minutes. Play may not be abandoned for the day prior to the completion of the 3rd rain delay, unless the Referee determines the courts are unfit for play at all that day.

7. For finals matches there must be 240 minutes of continuous rain delay before a washout can be declared. In this event or where a final is timed out without a result being achieved pursuant to Conditions 12.1(e) and 12.1(h) the higher placed team at the completion of the home and away rounds shall be deemed the winner. The Referee has the same discretionary powers as per Condition 12.6 to abandon the match earlier than the prescribed time.

13. HIT-UP AND REST PERIODS

- 13.1 The maximum time permitted for a hit-up before commencement of each rubber is five minutes only.
- 13.2 Play shall be continuous throughout each rubber and no rest period is permitted between sets unless Tennis Australia's Extreme Weather Policy is in effect, however, the courts played upon may be serviced between sets at the discretion of either player/team or if directed by an official.
